POSITION: SOFTWARE ENGINEERING MANAGER (#530913E)

LOCATION: NASHUA, NH

Lead several concurrent projects and balance compromise between ease of use, performance, and efficiency requirements. Lead significant aspects of user facing machine vision applications and products. Position requires up to 10% domestic travel.

REQUIREMENTS:

Position requires a Masters Degree or foreign equivalent in Computer Science, Electrical and Computer Engineering or closely related field with coursework related to computer vision along with two years of experience in machine vision inspection and image quality systems, hands-on experience programming, debugging, and designing in languages such as C, C++, C#, and Objective C and experience with vision libraries such as OpenCV, Aforge and EmguCV and with integrating cameras using GenICam standard API and SDKs. Employer will accept experience pre or post Masters Degree.
